CHRONICLES OF  
COMMUNICATION

THEN AND NOW

# G O D K I N G

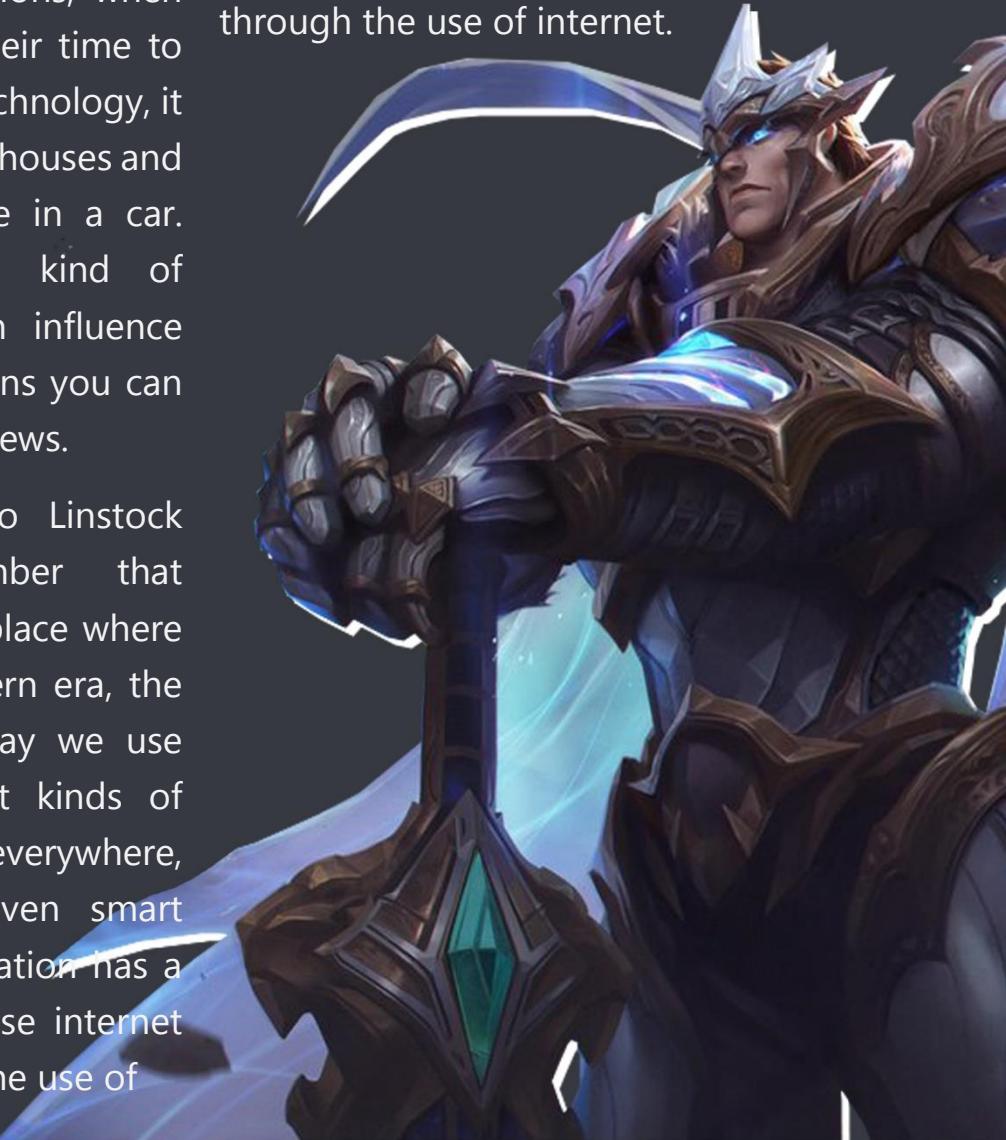

## Welcome to #chronicles-of-communication!

*With the media's significant advances to develop information and technology, how do you think it has influenced communication throughout the years? in relation, what are the notable roles of mass media and mass communication in these changes?*

In the beginning, media started from publishing stuffs like newspaper, magazine, books, and brochure, from that time, people are influenced this kind of communication to receive information through reading with the provided examples. In the next era, such as broadcasting in radios and televisions, when going air, people actually lends their time to listen from the news in particular technology, it can be anywhere, radios could be in houses and cars, even televisions can also be in a car. People are influenced by this kind of communication where radios can influence through listening, while in televisions you can actually both listen and watch the news.

Just so you know, according to Linstock communication, always remember that "televisions and radio remain the place where agendas are set." As for the modern era, the type of media used such as today we use internet to inform from different kinds of communication. Internet is literally everywhere, in phones, laptops, desktops, even smart televisions. This kind of communication has a huge impact to the people because internet can run without wi-fi but through the use of

mobile data. For the notable changes in mass media and mass communication are their tactics when it comes from the forms of media which are print, broadcast, and new media. The way of changing it was excellent because all the people around the world could also visit and watch local news in other countries through the use of internet.

## COMMUNICATION

If people want to deliver a message, they will write a letter or a "liham" in Filipino, to provide his/her news, thoughts, knowledge, and more. This will take a while to receive the message from you've sent. For those who are OFWs from that time, this would be their form of communication. Also, "liham" is famous for romantic people to write a love letter and propose to their loved ones. When it comes to calling, radio communication is famous back in that time. Millennials know this because they have this in the early year 2000.

Today this modern era, if we want to deliver a message, just type a word in a smartphone, laptop, tablets, and more. It will only take a second depends on your signal that may send it to the person you wanted to talk to. Also, landlines are now everywhere in the place with its lower price. People these days may find the technology today very easy to use because the communication is just one call away from the receiver. Writing today a "Liham" could only be seen in classes, or rarely in some places in the Philippines.

## Welcome to #we-have-issues!

*From the digital issues above, choose one issue you would like to focus on and cite one concrete example (blog, news articles, social media post). Identify the netiquette/s violated by people involved in the article/post.*

The issue that I would like to focus on is "excessive internet use". In my opinion, a lot of Filipinos now have access to social media, smartphones today can also use the internet to browse online such as Facebook, Twitter, Instagram, and more. In this issue, using the internet too many hours could harm the people, and according to NIMS (2019), the result could be mood swings, social isolation, insomnia, depression, and etc.

Many Filipinos may experience one of these now and not just mentally but physically such as back pain, headaches, obesity, and muscle wastage. Lastly, being addictive from the internet could either lead to other examples from the digital issue excessive internet use has many connections from other various digital issues.

1. **Humble** – I am a lowkey person even to my friends. I don't show or say something that other people don't need to know. I know that I am not a perfect person to judge other people's mistakes.
2. **Friendly** – Most of the people know that I have this trait because I can adopt their vibes in a good way. Since then, I have found having a friend is one of the best things I could ever have.
3. **Energetic** – When I am with my comfortable peers, they probably laugh by now due to the funny stories in my bad experience. I crack jokes where no one will be offended so nobody will be affected. Also, when going to school, I am a shy type of person because I'm not that confident to myself.
4. **Generous** – Most of my friends know this because my things are always ready to have such as foods and medicines. Whenever they need something, they just come to me and I'll provide it, because if I see my friends are happy, so do I.
5. **Optimistic** – I always cheer someone up and motivate him/her that he/she has a purpose living in this world. To be honest, I am not that great in comforting others, but I can be there whenever they need someone to talk to.

**As a future professional, what possible action plan can you and your field of work do to help mitigate the Filipino youth's illiteracy? If your plan was successful, name 2 steps/implications of 0% illiteracy in the Philippines  
- one positive effect and one negative effect.**

Social Media and technology are now taking over the planet, my profession which is field of medicine and it is Radiologist Technologist, it may suit to help mitigate the Filipino youths' illiteracy by suggesting them to type the words full and correctly, many of the netizens use short words to type fast but some people may trouble reading it and result maybe reading as a discourse. Another teaches them to criticize things in order to grasp the real thing, too much confidence in your opinion may see you in other people as a narrow-minded thinker.

If my plan were successful, the two steps would be first teaching people in your own small community such as friends and family that having trouble criticizing other people's opinions and more. Second is to teach other people what they learn from me in order to spread the knowledge in different branches of connections to people. The positive effect here is the first people I taught may keep remember this and confidently that they learn from it, the negative effect is if the other branch of connections to other people may differ from what I've taught from what I teach in the first one, according to Walter Lippmann

"Ours is a problem in which deception has become organized and strong. where truth is poisoned at its source; one in which the skill of the shrewdest brains is devoted to misleading a bewildered people."

# ANALYZE IT

## Welcome to #nice-work-sherlock!

Akosi Rhodie Today at 9:00 PM

The given article does not present much formality when it comes to updating the people on social media. While its main problem does give some information that is already a fact, somehow the author just adds some extras to make it reliable. From what I observed it doesn't give the article the professionalism of the work because it doesn't emphasize the author wants to provide in the reader. The construction of the article is the one that makes it unreliable and not credible because it is straightforward that doesn't emphasize the meaning like what I've said earlier. Also, this type of article is considered as People as Media, so you may agree or disagree with this article because this is just an opinion that came from other netizens. Another, the plausibility of this article shows illiteracy, it lacks on sources and validity of creating this message, it is a wrong move to the people that lack about this kind of knowledge and believe that this article comes from a legitimate source.

Now that I learn about these things in Literacy Agency Program (L.P.A), I can now criticize and analyze things that come from a reliable, credible, and valid article. Also, I've noticed this since the first paragraph, the author used the Filipino language as his/her prescription to deliver a message, but I observed that he/she used also another language which is English so the article is a "Taglish" article so it can be considered as a slang language. A slang language would never be part of a professionalism type of author, if you've started it as the Filipino language, you must end it the same, but you may use the English language as a quotation or some citation.

So, the creator of this article used Facebook as the medium of communication, well first because most of all the people have a Facebook account, and they use this application to receive and absorb information so we will be aware of the surrounding. According to the website Zephoria Digital Marketing, in June 2020, there are over 1.79 billion people average that logs onto the Facebook app every day and they considered them as active users. While in our local country, there are an estimated of 109,581,078 users in the Philippines and 71,608,065 internet users in May. 31, 2020.

According to D.W. Maurer (n.d), "Slang, unconventional words or phrases that express either something new or something old in a new way. It is flippant, irreverent, indecorous; it may be indecent or obscene." In my opinion, from analyzing the article, my decision is this is a type of misinformation because the creator admits that his/her message is coming from authentic information, but he/she doesn't have an intention to lie from social media. In my conclusion, this news may or may not be legitimate, because some part is true and the other one is not. You must read it twice or read it carefully for you to determine which sentence or paragraph is not trustworthy. As being part of encryption at the Literacy Agency Program (L.P.A), from what I've said earlier, it can be considered as people as media because it is the one who provides media sources and messages to give information to others but in some case, the author is been misinformed from the issue about the vaccine, and also he didn't mention when will the vaccine

## Welcome to #have-some-responsibility!

*In your opinion, what is "responsible use of media" and what are the desired traits to become a responsible user of media?*

For me, the "responsible use of media" may depend on the action you made on the internet, we must have ethics to learn basic morals or shall I say the Golden Rule when it comes to media information. Being you spread something to your friends or relative, you must check first where did the author base on his/her article so it would be credible and reliable to share.

We must be sensitive to the surrounding from what we are sharing or spreading in media, this includes Facebook and twitters, posting our thoughts, feelings, or rants in these applications may offend or hurt someone because they may be affected by what you said. We must avoid being one-sided when we read articles or news from social media, let us put our knowledge to anything that makes the path have a barrier. According to Muftic F. (2018), "With the advent of cable and internet, we have

become one-sided because of the ease of a click to seek out our media that is in our comfort zone, undisturbed by facts or arguments to the contrary", from that statement, the internet made us one-sided because we only search the facts based on our preferences or opinions, we must be open and get out of our comfort zone to see what is the reality and what is the truth also to avoid calling us narrow-minded netizens.

## Welcome to #in-or-out-with-the-old!

Most of us Filipinos know this since the Spanish Era, some people believe on what we called "Agimat" it is also known as "anting-anting", it is a charm that has some sort of black magic that will protect you from danger. This may involve the Albulyaro, they are the ones who can tell there's something wrong from the place or there's an evil creature that is angry because their homes may occur stampede from us, humans. According to Dr. Godofredo U. Stuart Jr. (c.a 2003), "albularyo may be referred to as the "general practitioner," knowledgeable in most of the folkloric modalities, usually especially versed in the use of medicinal herbs". In my opinion, I believe in science and facts, but in this kind of superstitions or myths, I might just accept this as their beliefs, and I respect them.

At this time, many of us still visit them to check our health status, of course not all of us have the same finances that can afford for real doctors, this is where they want to prescribe a medicine. When it comes to this topic which is medicine, I suggest prescribing and check yourself on professional ones, according to World Health Organization, "Medicines and health products are important for addressing health problems and improve quality of life. They form an indispensable component of health systems in the prevention, diagnosis, and treatment of disease and in alleviating disability and functional deficiency". I can provide a reason why herbal medicine must not include your maintenance because it may worsen your case. My Grandfather's best friend just died last week due to fatty liver, according to my Grandfather, his best friend's medicine came from an Albulyaro and he didn't experience to check up on real doctors to provide him real medicines that can lessen his suffer and let him follow the prescribed medicine to

continue it not realizing his case what just getting worse. After that, my Grandfather drives his best friend to the hospital for a real check-up, sadly his best friend was dead on arrival. To sum it all, Albulyaros today's era may help us not in all situations, they may help us in protecting us from evil spirits or "engkanto" in our place, also from charms and good fortunes that can motivate us. But Albulyaros will not help us when it comes to medicines, they don't have any ideas on what they give on their patients, I suggest that you must check yourself on professional doctors in the hospital.

Based on what I've read about the four friends, the one that been fainted may skip breakfast or anything that blocks his/her feeling, in order to join others from hiking in Batangas. The tour guide may still believe from local mythical creatures, so that's why the tour guide mentioned seeking an Albulyaro near the place. In my opinion, I would seek an emergency that lessens the cause of his/her faint and go right ahead in the near hospital of Batangas.

From the video I've watched about the Amalayer Phenomena, Paula scared her LRT mistake for life. "Everyone makes mistakes in life, but that doesn't mean they have to pay for them for the rest of their life. Sometimes even good people make bad choices. It doesn't mean they're bad... It means they're human!", a comment of a netizen/Youtuber which is Ariel Miao from the video. Before judging someone else's mistake, notice that you must hear both side's stories, but what happens in this issue is the netizens judged her mistake not knowing her real story behind before this incident happened such as when the security guard brags after Paula gets her bag and grabbed her telling that let's talk to the office.

Regardless of how she acts in the video doesn't mean she's born mad, she made mistakes but not always, she was traumatized from one mistake she did, and according to philnews.ph, Paula was at the point that she wants to change her name and any name would be fine because she doesn't want her name anymore. According to Rose Carmelle Lacuata, a reporter of ABS-CBN News, "Paula felt broken, with Salvosa becoming worried about her future, especially as she was on her last year in college.", she has been absent for the last two weeks because she was scared that everyone will humiliate her from the university.

# DECIPHERING SYSTEM SECURITY CODES

## MEDIA AND INFORMATION LANGUAGES

OPEN FOR INTERPRETATION

CRACK THE CODE

PHOTOGRAPHY 101

#

# AKALI

## Welcome to #open-for-interpretation!

*Lightning bolt has been a recurring icon in media vis-à-vis literature. Selected films and novels have shown remarkable use of it with different representations and meaning. The following films - The Flash, Percy Jackson, Harry Potter - are great examples of how media languages convey meaning in a unique way.*

Akosi Rhodie Today at 9:00 PM

**OPEN FOR INTERPRETATION**

IN MY PERSPECTIVE, THE MEANING OF THE LIGHTNING BOLT FROM THE FILM ABOVE SYMBOLIZES POWER. IN THE THREE, THE FILM THAT I'VE ONLY WATCHED WAS PERCY JACKSON AND THE LIGHTNING THIEF. TO INTERPRET THIS, THE LIGHTNING BOLT OF ZEUS IS THE MOST POWERFUL THING THAT IS EVER CREATED BASED ON THAT MOVIE. THE REASON WHY POSEIDON AND ZEUS WOULD ARGUE WHEN THE TIME HAS COME AND STILL THE LIGHTNING BOLT IS NOT WITH ZEUS' HAND, THERE WOULD BE CHAOS EVEN IN THE MORTAL WORLD WILL ALSO BE INVOLVED, ANOTHER IS ZEUS SUSPECTED SON OF POSEIDON WHICH IS PERCY TO BE THE LIGHTNING THIEF. FOR THE TWO PICTURES THAT I CHOSE ABOVE IS PERCY JACKSON AND THE FLASH, BOTH MOVIES HAD SIMILARITIES WHEN IT COMES TO POWER. WITH THAT, BOTH HEROES USE THEIR POWER TO SAVE HUMANITY FROM EVIL, USUALLY, ALL THE HEROIC MOVIES USE IT TO FIGHT FROM THEIR ARCH ENEMY.

THE CHARACTER THAT I AM MOST FAMILIAR WITH WOULD BE THOR. IN THE MCU, THOR IS THE SON OF ODIN BORN WITH LIGHTNING POWER, AFTER MANY YEARS, HIS FATHER ODIN GIVES HIM THE HAMMER CALLED "MJÖLNIR" AND ONLY THE WORTHY CAN LIFT IT UP LIKE CAPTAIN AMERICA IN AVENGERS END GAME. SO, TO EXPLAIN IT, THE MJÖLNIR ONLY BALANCES AND CONTROLS THE REAL POWER OF THOR WHICH IS LIGHTNING. HIS DAD EXPLAINS IT IN THE MOVIE THOR: RAGNAROK BEFOREHE DIED AND IN THE ENDING PART OF IT, THOR REVEALS AND UNLEASHES HIS TRUE POWER FROM HIS SISTER, HELA, THE GODDESS OF DEATH. TO CONCLUDE THIS, THOR IS KNOWN AS GOD OF THUNDER, THE PURPOSE OF HIS HAMMER IS JUST TO CONTROL HIS POWER, HE REALIZES IT WHEN ODIN MADE HIS PRESENCE IN THE ENDING PART TELLING THOR THAT THE HAMMER IS NOT THE SOURCE OF HIS POWER.

ACCORDING TO UNCLE BEN FROM THE MOVIE SPIDER MAN (2002), "WITH GREAT POWER COMES GREAT RESPONSIBILITY". FROM THAT STATEMENT, HAVING GREAT POWER MUST CONCEAL IT FROM THE PEOPLE AND ONLY REVEAL IT FOR THE ENEMY OR BAD PEOPLE. ALSO, IT COMES WITH GREAT RESPONSIBILITY BECAUSE WITH THE POWERFUL WEAPON YOU HAVE THERE COULD LEAD, DAMAGE, AND AFFECT INNOCENT CITIZENS FROM THE CHAOS YOU'RE HAVING, OR YOU'LL BE GOING TO DO. KEEP IN MIND THAT TYPICAL SUPERHEROES MOVIES DO NOT SHOW THEIR POWER WITHOUT SOMETHING BAD HAPPENS IN THE PLACE.

SCREENSHOT NUMBER ONE

CAMERA SHOT: MEDIUM CLOSE SHOT  
POV: OVER-THE-SHOULDER SHOT  
CAMERA ANGLE: EYE-LEVEL SHOT  
CAMERA MOVEMENT: TRACKING SHOT

The camera shot used here is medium close shot because only half body is seen here. The technical code used in this screenshot is over-the-shoulder shot, this is under the category of point of view. The camera movement used is tracking shot because the camera moves as Elsa walks. From this screenshot, it only views one person which is Elsa, but if you notice, this is also accepted as over-the-shoulder because of the dialogue parts the front and back of Elsa are visible. The subject here is focused on herself, the lightings and color of the background are dark to emphasize only for her.

SCREENSHOT NUMBER TWO

CAMERA SHOT: MEDIUM LONG SHOT  
POV: REACTION SHOT  
CAMERA ANGLE: HIGH-ANGLE SHOT  
CAMERA MOVEMENT: TRACKING SHOT

The camera shot that was used in this scene is the medium-long shot to show the whole body of Elsa and the hallway. The POV used for the scene is the reaction shot. The high-angle shot is the type of camera angle that was used for the scene. The camera movement used is the tracking shot wherein the camera tracks the movements of Elsa to align Elsa on the screen. The color of the scene is reddish and it shows that outside, the balcony has a bluish tint where Elsa will go afterward.

SCREENSHOT NUMBER THREE

CAMERA SHOT: MEDIUM SHOT  
POV: POINT OF VIEW/POV  
CAMERA ANGLE: EYE-LEVEL SHOT  
CAMERA MOVEMENT: TRACKING SHOT

The technical code used in this screenshot is called the medium shot. This is the scene wherein Elsa is starting to look for the source of the sound or the "unknown". The camera pans from left to right while zooming out while Elsa goes towards the railings of the balcony. The moment when Elsa entered the balcony, the medium shot was used, and it transitioned into a medium-long shot afterward. The background has a reddish color while Elsa has a bluish tint to emphasize Elsa.

Pick one image below and identify what went wrong with the text/s used. Also, critique how was it presented (materials, location, language used, appearance) in comprehensive sentences (5 sentences max.).

Akosi Rhodie Today at 9:00 PM

The image that I chose was the 2nd picture, the 2nd photo went wrong when they put a big tarpaulin above the gate saying, "WELCOME PO KAYO DITO!" , then on the gate itself, there was also a wooden sign saying, "NO ENTRY" the two are large enough to read even in the far area. The big sign says we are all welcome to enter inside the place, while on the gate, it says the vice versa of the big one. The main problem here is the two banners contradict their message to the people. From this information, the visitors will be confused because of what to believe in the two, also the language used here is Filipino and English. The owner of this place should broaden the meaning of what he wants to try to explain in the two banners.

## Welcome to #make-a-meme!

**Who doesn't like memes? They're fun and tacky, full of relatable situations and secrets we never knew others have too! For this M&M, you are going to express the same relatable scenes and secrets by making captions for the given memes! Have fun!**

Make a Meme

DE ROCA, KENT PAULO  
PARIL, MARION MIMIKO  
SATSATIN, ROD DOMINIC

\*Some subjects require the assessment to be passed as a .pdf file rather than a .doc file for easy access, but sometimes, we make small mistakes.

Arial Helvetica

Me struggling what to choose

Selecting a San Serif typeface that I want to create for my essay.

\*Picking fonts in the choices can be deceiving because most of San Serif typeface have similarities in styles.

Peter Piper picked a peck of pickled peppers. A peck of pickled peppers Peter Piper picked. If Peter Piper picked a peck of pickled peppers, Where's the peck of pickled peppers Peter Piper picked? How much wood would a wood chuck chuck if a wood chuck could chuck wood? He would chuck, he would, as much as he could, and chuck as much wood. As a wood chuck would if a wood chuck could chuck wood.

\*Alignment will help your work to have a neat file as possible.

Passing DOC format in schoolbook assessments.

AND IN DOING ALL MY DUTIES I HAVE NO TIME FOR ME

I HAVE NO TIME FOR ANYTHING ELSE
